

# HAL Episciences

*COAR NGR Technical Meeting*

*2021-01-28*

# CCSD Mission Statement

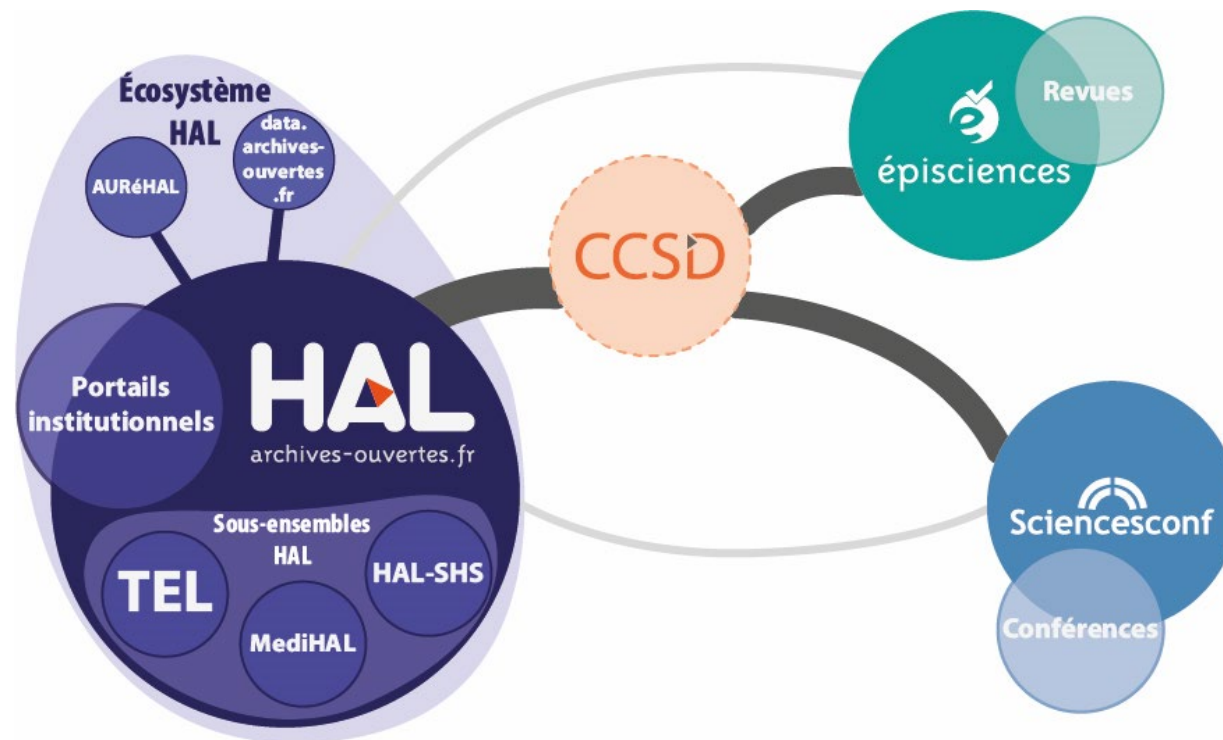

- ▶ The CCSD's mission is to provide tools and services to researchers and higher education and research institutions to make the scientific production widely available, discoverable, usable and long-term accessible
- ▶ The CCSD creates the conditions for the reappropriation by the scientific community of its own production and, in the long term, for the global opening up of research process
- ▶ Its action is fully in line with the international movement in favour of open science and contributes strongly to the implementation of "bibliodiversity".

# CCSD Mission Statement

- ▶ “providing tools and services to researchers and higher education and research institutions to make the scientific production widely available, discoverable, usable and long-term accessible”

# Plateforms

- ▶ **HAL** is the French multidisciplinary repository
- ▶ More than 800.000 full-text documents available in OA
- ▶ It hosts 125 institutional repositories for universities and research organisations and other various thematic repositories

- ▶ **Episciences** is an overlay service to manage the entire scientific publication cycle: submission, certification, copy-editing, online dissemination and preservation
- ▶ All preprints and the final versions published in Episciences journals are deposited in an open repository.

- ▶ **Sciencesconf** is a management tool for scientific events (registration, evaluation of papers, public website, etc. )
- ▶ More than 9.000 conferences already organised
